YOU'VE FINISHED!

Program Milestones

Program milestone courses should be taken in the term and order noted.

Make Your Summers Matter

Take general education courses

General Advising Notes

BUS 110 Introduction to Business should be taken first because it is a prerequisite for most business courses.

If you plan to transfer after degree, make sure courses (not just credits) are transferable. Your faculty advisor can help you with this.

MAT 118 Quantitative Analysis is important to have before taking finance/accounting courses. English and Math courses should be taken in your first term, if possible, or first year.

BUS 280 Capstone course should be the final course taken.

Work closely with the program chair to discuss career plans to make sure you take the appropriate courses.

Part-time option available, please refer to the college catalog.

The sequencing of courses in this program begins in the fall semester. Students entering in the spring or summer will likely take longer than two years to complete the program (unless in the accelerated program).

Program Description

The concentration is suitable for the financially oriented Business major. Finance Concentration majors master cash-flow analysis, principles of corporate finance, banking and securities operations and a variety of other skills essential to careers in the financial services industry. Finance Concentration students will be prepared for financial-services jobs in banking, insurance and securities; financial planning, bank branch management, insurance agency sales and management. Students already employed in the financial services industry will find the Finance Concentration program useful in advancing their careers. The program also offers transfer opportunities for those who wish to continue their education at 4-year colleges or universities.

Program Learning Outcomes

Students who successfully complete the Associate in Applied Science degree in Business Administration; Finance Option will be able to:

- Analyze contemporary business and financial issues, using critical thinking skills.
- Effectively demonstrate oral and written communication skills to convey essential business concepts.
- Demonstrate the ability to work both independently and as a team member in collaborative projects.
- Identify and describe principles of personal and community engagement appropriate for members of the business community.
- Describe and explain appropriate ethical behavior relevant to a variety of business environments.
- Demonstrate a recognition of the value of diversity in opinions, values, abilities and cultures in all business environments.
- Analyze, articulate and communicate business information using appropriate information technology.
- Apply basic accounting and financial concepts to business problems.
- Apply quantitative analysis to the study of a wide variety of business problems.
- Describe and explain the essential legal, regulatory, cultural and organizational framework of the global business environment.

Career Opportunities

Students with an A.A.S. in Business Administration; Finance Option, expect to work in the financial services industry. Representative jobs in that field include: loan officer, branch manager, customer relations representative, mortgage originator, insurance agent, stockbroker in smaller or regional brokerage firms and back-office administration and management for financial institutions. Students will graduate with more skills specifically related to the financial services industry, as well as the broader business skills offered by the more general Business Administration A.A.S. The objective of the program is to provide students with the knowledge, training, skills, and credentials, which will lead toward a career path in finance-related businesses.

*Articulation agreements exist between York County Community College and various colleges and universities.
Please work with your advisor for information regarding these agreements.*
