SWO 112 Crisis Intervention	3		<input type="checkbox"/>
Program Elective	3		<input type="checkbox"/>
Total Credits	15		

YOU'VE FINISHED!

- **Program Description**

The Criminal Justice Associate Degree program focuses on the criminal justice system, its organizational components and processes and its legal and public policy contexts. The program includes instruction in criminal law and policy, law enforcement and correctional organizations, the administration of justice and the judiciary, victim advocacy, and public attitudes regarding criminal justice issues.

- **Program Learning Outcomes**

Students who successfully complete the Criminal Justice Associates in Applied Science degree will be able to:

- Identify the functions and roles of all major aspects of the United States criminal justice system.
- Describe the institutions, laws and theories that make up the legal system.
- Explain the constitutional constraints under which police and prosecutors must operate in a free society and the reasoning behind these limitations.
- Discuss the importance and application of basic ethical behavior in the exercise of public trust and discretionary authority.
- Demonstrate effective written, oral and electronic-based communication skills in a professional workplace.

- **Career Opportunities**

The Criminal Justice degree is designed to prepare students for entry level careers in law enforcement, corrections, emergency dispatch, victim advocacy and private security in addition to serving as the basis to transfer on to complete a baccalaureate degree.

Articulation agreements exist between York County Community College and various colleges and universities. Please work with your advisor for information regarding these agreements.
