The sequencing of courses in this program begins in the fall semester. Students entering in the spring or summer will likely take longer than two semesters to complete the program.

## **Program Description**

The Networked Systems Technology Certificate Program prepares students entering the field of system administration. The program gives students hands-on experience in general troubleshooting, diagnosing desktop and server problems, providing support, and handling basic system administration. The curriculum is designed to develop critical thinking skills and enable a student to be ready for today's jobs and the ability to thrive in the ever-changing IT landscape.

## **Career Opportunities**

Graduates will be prepared for entry level positions working in a wide range of companies. Possible jobs include: Network Technician, Systems Support, and Systems Administrator. All courses in this certificate program may be applied to the Information Technology AAS degree.
